

Scotland Coast to Coast cycle hire package

Delivery

We deliver your bike to Cawdor Castle on Friday 8th September.

Collection made in person for fitting and set up from 3pm to 10 pm.

We will assign a member of our staff to assist you with setting up your bike, fitting pedals, sizing, gear operation and any other questions you have.

Cawdor Castle is your run to bike transition on Saturday morning after starting from Nairn. You will leave your bike in the secure on site compound overnight ready for your arrival on Saturday morning.

We will have a selection of spares for sale so please ask if you need anything. We always have lots of tubes to cover all wheel sizes.

Collection

We collect your bike from the Fort William transition point on Saturday 9th for expert and Sunday 10th for challenger.

Fort William is your final bike to run transition point and we will be there to take your bike as you arrive. We quickly remove any parts fitted and these should be given to Rat Race staff to be transferred onto the finish at Glencoe by RatRace.

Payments

Payments can be made by card over the phone (01877 331100) or email your card details. Card details should include the long number, expiry date and 3 digit code from the back of the card.

We don't require any deposit on booking, but require final payments by the dates shown below.

Final payment deadlines

We have cut off dates for final payments on each type of bike.

Cross Bike 14th June

Hybrid 14th June

Premium Mtb 14th July

Standard Mtb 14th August

Non UK bank transfers will have a £10 bank charge fee.

Cancelations

We offer a refund minus £ 10 admin charge, for any cancellations made before the final payment deadlines.

Any cancellations made after these dates cannot be refunded. We do however offer a roll over to next year's event or transfer to another RatRace bike event.

Damage

You are liable for any loss or damage to the bike.

There will be a charge made for any cosmetic damage caused to the bikes made by anything other than normal use.

Strapping walking poles, locks or other heavy items to the bike does cause unnecessary damage to the paint cutting into the metal and will fatigue the frame prematurely.

Please ride within the limitations of the bikes intended use and your own ability.
