Type:	<i>Mountain bikes, sturdy hybrids</i>
Signage:	<i>Directional, National Cycle Network (NCN7) road signs and path</i>

Route Description

Sustrans 7 Callander to Strathyre offers Families the ideal escape for the day with spectacular views along Loch Lubnaig while passing through wild unspoilt forest regions.

From Wheels Turn right and go to the mini roundabout turn left and over the bridge into Callander Cycle west, out of Callander along the A84, and about 50 yards past a Tesco store follow a path going left, next to a pedestrian crossing – it is indicated by a blue sign for Strathyre. A bridge takes you over Garbh Uisage then the line of the former railway passes fields, goes over a track and reaches the A821, which you cross. The track continues past the Falls of Leny – see above for a detour to them – and on to a car park for Ben Ledi. Keep straight on after the car park, following another blue sign for Strathyre. A minor road leads along Loch Lubnaig, turning into a track again after some chalets. About a mile-and-a-half after the chalets, the track rises to a junction where you go right. The well-signposted track then reaches fields before climbing to the edge of forestry and dropping down towards Strathyre. At the bottom of a long hill, follow a sign, right, at some wooden houses. Go left after about 20 yards and follow a path down to a wooden suspension bridge. The car park is on the other side of the bridge, on the right.

Points of Interest
